

Wonderful weaving
What will you create?

Off on a woodland adventure?

Try your hand at stick weaving while you're there!

Look out for forked sticks. When you find one, wind the wool or string in a zig zag from one side of the fork to the other.

Before you go, grab a handful of wool or string – you'll need this later.

Now keep your eyes peeled for fallen leaves, winged seeds and smaller, bendy twigs.

Weave them into your wool – what have you captured in your woodland net?

Super Sticks!

Try using different coloured wool and weaving with lots of sticks.

Feel free to copy and share this for personal and educational use – and don't forget there are loads more brilliant activities to download on our website!
